***We know poor compressor servicing can lead to
costly downtime for your business.***

That's why we focus on you.

YOUR COMPRESSED AIR SPECIALISTS

Nessco Pressure Systems (NPS) is leading the compressed air industry in Western Australia, providing turnkey solutions for our customers, from consultancy through to system design, installation, and servicing of screw compressors, air preparation equipment and airline systems.

When it comes to servicing, breakdowns and emergencies, our flexible and personal service means we respond quickly, minimising downtime.

We service all brands and sizes of air compressors across all industries, as well as performing compressed air audits, WorkSafe WA registrations and inspections, and comprehensive air testing - providing peace of mind that your compressed air system is reliable, safe and energy efficient.

As a WA-owned and operated company, our strength lies in our people, our partners and our commitment to going the extra mile for our customers. Our sales and service centre in Welshpool supports everything we do.

OUR SERVICE AGREEMENTS

Regardless of your industry, downtime costs can be significant, so it's critical that your equipment works when you need it. Nessco Pressure Systems offers two service agreement packages for screw compressors.

The Venti and NPS Service Agreements are tailor-made service plans, designed to ensure your compressed air system is reliable, safe and energy efficient.

Each agreement details exactly what services you are receiving, with all work completed to manufacturer specifications to uphold your warranty.

Supported by our customer service management platform, which automatically generates your compressor system's required service schedule, we'll make sure your compressor is well maintained, and that all equipment is inspected in line with WorkSafe requirements.

Our factory-trained service technicians have extensive experience in the compressor industry and local knowledge of the conditions where you are working, so you can be confident you're getting the best service and support for your compressed air system.

WHY CHOOSE A SERVICE AGREEMENT?

Your Nessco Pressure Systems Service Agreement is:

- Tailor-made for your compressed air system
- Designed to ensure your system is reliable, safe and energy efficient
- Serviced by our factory-trained technicians who have extensive industry and local knowledge
- Inclusive of air receiver inspections, helping you comply with WorkSafe requirements
- Carried out to manufacturer specifications to uphold your warranty
- Inclusive of a comprehensive written report after each service
- Supported by our responsive, reliable, personal service, including our 24/7 on-call service (additional charges apply).

TAILOR YOUR NEW SERVICE AGREEMENT
